The New Arrow Revolution stand alone touchscreen lock combines the functional elements of a cylindrical lockset with the latest technological designed for electronic aesthetic. This device can be fully installed for roughly $500 per door.

Users benefit from a simple interaction with the lock through a voice guided touch keypad, making day to day use and programming easy. The Revolution is recommended for healthcare facilities, offices, retail environments, multi-family, hospitality, government facilities, as well as K-12 school environments. It provides a traffic control solution for areas requiring restricted access. If necessary, both users and user groups can be easily locked out by the administrator. This feature provides a quick lockout option in case of a security concern.
